Description of Work:

Under the START SOW IV.B.3, the contractor shall provide the following:

- Collecting, analyzing, and/or validating analytical samples.
- Providing QA/QC support.
- Identifying personal safety requirements and providing health and safety support.
- Provide technical support to EPA in overseeing cleanup actions by collecting information and making recommendations to EPA regarding cleanup activities.
- Performing financial monitoring of site cleanup costs (which involves tracking all removal action site costs, including cleanup contractor services, on a daily basis through the use of the Removal Cost Management System (RCMS).
- Conducting extent of contamination surveys.
- Provide administrative and technical support to EPA in the preparation of site reports (i.e. Pollution Reports) and other technical site related documents.
- Providing technical support and options for EPA in the developing and implementation of transportation and disposal plans and waste profiles.
